Good Road Movement: Geo. P. Burnett, W. G. Admond  
How we may become Successful Farmers in Cumberland County: L. R. Neal  
How the Teacher and Student of Home Economics may do their bit toward Nation's Food Conservation: Mrs. E. B. Cope  
Current Events: Addie E. Henry  
General Discussion: Led by Prof. J. S. Cline.

Addie E. Henry, Chm.  
J. S. Cline, Supt.

If you can't fight your money can.

## GRASSY COVE

Rev. Burt Garrison preached at the Baptist church here Sunday.  
Mrs. Lidda Knox is on the sick list this week.  
T. E. Wilson and son Bratch went to Crossville last week.  
Mr. and Mrs. Hartmann went to Crab Orchard Thursday.  
Dr. Reed was here Saturday attending to a patient.  
A. C. Kemmer and wife went to Crossville Friday.  
Bratch Wilson was in Spring City one day last week.  
Miss Forest Kemmer visited home folks for the week-end.  
Brown Bristow and Oliver Foster went to Crab Orchard Saturday.  
Mrs. Judson Foster went to Chattanooga Wednesday, for medical treatment.  
W. B. Andrews and son were in Waldensia Saturday.  
Wm. Monday was over from Waldensia Sunday.  
Lee Dunbar has been painting our schoolhouse the past week.  
School here has begun again.  
Jesse Knox was visiting on the mountain Sunday.  
The frost has not hurt anything yet.  
Oct. 7. Tube Res.

Liberty Bonds or German taxes.

## "A word to the Wise"

Merchandise is high.

Many things are very scarce and can hardly be found at any price.

By buying far ahead we now have in our house an extra large stock of Shoes, Clothing, Ladies' Suits and Coats, Dresses, Dry Goods, Underware, Sweaters, Millinery and Ready-to-Wear garments of many kinds.

Most of the goods we sell cannot be bought again by us at the prices we charge you. Wholesale houses tell us they cannot furnish any more of several things we now have in stock. This makes it to your interest to buy your winter goods as soon as possible.

We know the markets, wholesale and retail. We sell Shoes, Dry Goods, Ladies' Coats and Suits, Millinery and many other things cheaper than in the cities. Their quality and style are no better than ours. We save you at least 5c a yard on staple dry goods; on some things as much as 25c a yard.

## Groceries

We sell groceries cheaper than the Government Regulation Prices on cost and delivery to us here.

Meal, per bag.....	\$1.10
Flour, per bag.....	1.70
Coffee, per pound.....	.17
2 Boxes Armour's Rolled Oats.....	.25
Rollod Oats, Cyclone, per box.....	.10
Soda 6 boxes.....	.25
Matches.....	.05
Laundry Soap, per bar.....	.05

## FREE:

One pound of ground coffee will be given free as long as it lasts with each \$10 worth of groceries bought in one bill.

## REED &amp; SMITH CO.

Lead in PRICE and SERVICE.

## Fine Morning Walk.

The longest bridge in the world is the Lion bridge, over an arm of the Yellow sea in China. It is five and a quarter miles long, and the roadway is 70 feet above water.

## How They Play.

The playful habits of sheep and goats are well known. The calf is an ungainly creature, but it will gambol over the pasture in a highly diverting manner. Birds hold dances regularly, at which the tango is not excluded, though most of the numbers are solo performances and would be billed as "eccentric dancing."

## Greenland Rich in Metals.

Greenland, that huge Danish territory, has copper, lead, silver, tin. Flakes of absolutely pure silver have been picked up in crevices along the cliffs. Masses of almost pure iron are found in Greenland. One which was brought to Europe was six and a half feet long by five and a half thick, and weighed 46,000 pounds.

## Camphor Plantation.

The first and only bearing camphor plantation of any size in this country is located at Satsuma, Fla., says Popular Science Monthly. It contains over 2,000 acres of camphor trees which last year yielded over 10,000 pounds of crude camphor. This year it is expected the yield will be many times this amount. Florida has several other plantations, which will soon come into bearing.

## Hardy Tree is the Palm.

While commercial dates are successful in very restricted areas, the palm is very "tough" and resourceful. It will actually thrive in sand, in clay, adobe, peat, swamp muck, alkaline or salty soils and generally over a wider range of conditions than almost any other plant.

## Concentrated Clews.

For persons interested in the study of finger prints can be highly recommended any of the best circulating novels in the public library.—Buffalo Express.

## Quality of Truth.

We can be generous and liberal in our views, without being loose and latitudinarian. Truth is many-sided, and no dogmatic system contains it all.—Rylance.

## Maternal Instinct.

Among the lowest members of the monkey tribe little maternal affection is demonstrated, while with the generality of monkeys, and especially with the higher apes, the female displays the utmost tenderness toward her young. The maternal instinct developed early in the monkey stage of our evolution.

## No Chance for Them.

An Irishman who was driving a load of pigs to the fair was met by two swells. One of them accosted him with the words: "Say, Pat, could you let us have two inside seats?" To which Pat replied with a smile: "Well, then, I can't, for when I agreed with them that's inside, I had to promise that I'd take up no one that wasn't as good as themselves. I'm so sorry," said Pat.

Write Aberdeen Angus Cattle Company, Kingston, Tennessee. Registered Angus young cows, bulls and heifers at Farmers' prices.

For Sale—One good organ, W. F. Ray Crab Orchard 10-9-2t.

For drilling wells see or write J. H. Graham, Pomona, Tenn. 6-6-tf.

Sam Tollett who recently sold his farm near Creston, has bought 200 acres of undeveloped land three miles from Creston and is carving out another farm.

Miss Mattie Norris, who is teaching at Lantana, was in town Saturday accompanied by Miss Eliza Norris.

Crane's stationery by the quire and envelopes by the bunch at the Chronicle office. Nothing made better than Crane's.

Wm. Parsons and son were in from Creston Saturday. Mr. Parsons is one of the successful farmers of the Creston neighborhood and is an all around good citizen.

Since Thursday Ben West has been all smiles over the arrival at his home of a very small man whom some peasants call Benjamin Harrison West Jr.

W. S. Wattenbarger was over from Isoline Saturday. He is preparing to put in 25 acres of small grain a part of which will be wheat. He feels that he should do his part in helping to increase the wheat acreage of this county as the government has requested.

Plenty of Time Books at the Chronicle office: two weeks' size and monthly, only 10c. Stenographers' note books also.

E. M. McCarroll has sold his residence to J. S. Garrison and Mr. and Mrs. Garrison moved in last week. Mr. McCarroll has purchased the property formerly occupied by K. L. Bibrey and moved there the first of the week. Mr. Bibrey has purchased the Baxter Burnett cottage and moved there the first of the week.

W. B. Johnson has been appointed official photographer for this county. It will be the duty of Mr. Johnson as official photographer to make photos of all patriotic gatherings, all parades, members of Food, Fuel and War committees and also of any things that are likely to be of special interest in an educational or patriotic way.

Wilbur Brookhart was up from Peavine to attend the speaking and war rally Monday.

If you want score cards and pencils, paper napkins, nice writing paper cut to special size come to the Chronicle office for them.

Venus Hinch, son of Craven Hinch, Burke, is home on a 30 day furlough from service in the marines. He is stationed at New Orleans. He will leave on his return about October 20.

Circuit court is in session with judge C. E. Snodgrass on the bench and Attorney-General J. R. Mitchell before the bar in behalf of the people. The docket does not promise to be heavy and the term of court is expected to be shorter than some times.

At the Chronicle office you can get pen tablets, examination tablets, fountain pen ink in five and ten cent bottles, pocket note books, stenographer's note books, Crane's fine stationery in two-quire boxes and other stationery such as you do not find elsewhere in this county.

J. T. Weaver was here last week from Glasgow, Ky., on a short visit with relatives and friends. Mr. Weaver was agent here for T. C. for several years and has many friends here who were glad to welcome him.

J. E. Taylor arrived Saturday from Nashville, where he has been working for some weeks at the Powder Plant. He will return the last of the week unless quarantine restrictions should make it impossible for him to go to work again. He reports many cases of the Spanish influenza at the plant and numerous deaths among those afflicted.

Mr. and Mrs. W. L. Dunn, of Sparta, were the guests of their daughter, Mrs. Bertina Bandy, from Saturday to Monday.

H. C. Sabine was here Monday securing data from the postoffice that would enable him to make out the quarterly report for the postmaster at Waldensia. Mr. Sabine has recently gone to Harriuan to pass the winter with his son, Harry. He is a very useful man in his community and will be missed by many.

## MEATS

I handle fresh and salt meats and vegetables and can furnish you on short notice.

## LUNCHES

and hot meals while you wait—the "wait" will be short and the eats long. Our soup is extra fine.

F. A. LOSHBROUGH

Indelible pencils at the Chronicle office.

S. M. Hale, is visiting with his brother, T. L. Hale, of Big Lick.

Any persons in the county who won cash prizes at the county fair and who have not yet been paid, should see Harry Martin and he will adjust same satisfactorily.

Prof. John L. Rose is here for a week from Charleston, Bradley County, where he is principal of the high school. That being a cotton country the county school board ordered the schools of the county closed for such periods as the several schools might require to interfere the least with the school work. Prof. Rose and his faculty decided that two weeks would serve in their case and the school of 260 pupils were turned loose for that period of time to help save the cotton crop.

Much to our regret we are unable to give a detailed report of the premiums and ribbons awarded the Cumberland County exhibit at the Chattanooga fair last week. We hope to have the full data and good report by next week.

C. B. Wilson and little son Thomas, Jr. were up from Grassy Cove Monday. Something over a year ago Mr. Wilson lost a large barn and considerable hay and grain by fire. Nothing discouraged by his heavy loss he at once built a bigger and better one making it 60x60 feet which is one of the best barns in the Cove.

Jesse F. Wyatt was in town Monday buying Thrift and War Savings Stamps for numbers of his neighbors. His total purchases amounted to close to \$75. He is deeply interested in that character of war work and has been particularly successful in inducing people to invest in the war stamps and bonds.

Mrs. E. B. Cope arrived from Chattanooga on the early train yesterday morning and will be actively at work with her clubs over the county again.

On the way to Chattanooga the steering apparatus of Prof. Albertson's car gave way and the car left the road at a rather rapid speed. Fortunately no one was seriously injured although Miss Hallie Dunbar sustained a severe bruise on the bridge of her nose that developed into a pair of black eyes and caused her sharp pains for a few hours. The car was put to rights and they proceeded to Chattanooga at which place proper repairs were made.

M. F. Reed went to Knoxville Monday on business.

Practically all farmers are now ready for the killing frost that usually arrives at about this time. Almost all hay and corn is cut and little remains that frost can seriously damage.

Rev. Robert Hall was in town yesterday on his way to Lebanon to attend the Tennessee Conference of the M. E. Church south. Rev. Hall has been on this charge four years and has won many warm friends by energetic and Christian conduct. He is a man of many admirable qualities and his friends here will home for him a pleasant charge should he not return here, which is hardly likely considering the time he has served the people of this section.

All presents going to our boys over seas for Christmas must be put up in uniform packages. You can get full information touching this by applying to the Red Cross at Crossville. We will give further details in these columns next week.

Liberty Bonds or German bondage.

## MASSONIC HOME

All members of Amanda Chapter, O. E. S., who have pledged canned fruit or other foods for the Massonic Home, or any who may wish to give, are requested to deliver same at the home of Mrs. Lelan DeGolia not later than October 20 so it can be packed and shipped before freezing weather.

Idle dollars are Pro-German.

## Keep Curb on Speech.

Most of us say a great deal more than we mean. We have a way of exaggerating things just for the sake of the picturesque. There is no reason why we should talk about our own affairs and less reason for talking about our neighbors. It is a mighty safe rule in business, as in life itself, to say only the pleasant things and keep the unpleasant things in the background—or better still, not to recognize them at all.

## Hebrew Knowledge of Silk.

Silk was probably first known to the Hebrews in the time of Solomon, when their commercial relations were greatly extended.

## SPEAKING TOMORROW

Richard Hardy, Judge N. M. Allison, Louis M. Coleman, Private Prichard, and Sergeant Bocher, who is a splendid singer, will arrive in Crossville tomorrow and address the people on the Fourth Liberty Loan. The speaking will be at 12:30. It will be well worth coming out to hear the singing alone.

They will address the people of Pleasant Hill at 9:30 in the forenoon while enroute to Crossville.

Buy over here to win over there.
